

End of August Lake Level

Sep 04, 2016

Notice end of August Lake Level

The dam gage on 8/31 is 9.35. This compares to the 8/15 reading of 9.05. All boards have been in place this entire month. Rainfall for the month was 1 inch above the average and total for the year is about $\frac{3}{4}$ of an inch above the average. DNR guidelines specify a gage reading between 8.5 and 9.0 for this time of year.
