Subject: Waterway Marker Permit Approval – Clark Lake

Dear Mr. Schumacher;

The Department of Natural Resources has reviewed and approves the addition of One “NO Motor” waterway marker, to the original three (3) “NO Motor” waterway marker permit issued in January 2009. These marker placements delineate the boundaries of a “No Motor” area as specified in the Town of Jacksonport Ordinance No. 03-2008, which was adopted by the Town Board on December 16, 2008.

The DNR program identification number 3474 which was assigned to the original waterway marker permit is assigned to this additional waterway marker placement as depicted and identified on the enclosed aerial map.

The authority for the placement of the waterway markers is vested in the local authority, which is the Town of Jacksonport. The Clark Lake Advancement Assn.(CLAA) as the permit holder, is responsible for the placement, maintenance and upkeep of all four markers and ensuring the waterway markers are placed in the GPS locations identified on the enclosed aerial map.

The permit application copy, along with this approval letter, should be kept in the CLAA records in your home office. I am mailing a separate copy to the Town of Jacksonport, to provide proof of the CLAA compliance with State law, and be available for any public records requests received from the general public.

If you have any questions about this waterway marker permit approval or have any future recreational boating program questions, please contact Recreation Safety Warden Jeremy Cords at 920-662-5129, or you can reach me at 608-266-2203.

Sincerely,

Wayne Ringquist
