

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. # CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. 2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. # CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.

The ramp volunteers continue to do trailer inspection for invasives and coach boaters about lake safety and to limit activities in water less than 5 feet in depth. Last year we had new brochures and a portable sign. This year, we are looking to install a large, permanent sign at the west side ramp.

### **Lake Safety/ Lake Maintenance (Bob Defaut & Chuck Birringer)**

The west side ramp continues to have a hole and ridge with some difficulty for larger boats to launch and recover. CLAA has approached both townships to discuss a solution and funding options. Manual moving of the stone is planned for this spring so watch for a call for assistance.

Volunteers will be needed to put in and take out the many buoys on Clark Lake. Because a calm sunny day is usually needed to find the buoy anchors, volunteers should be available on demand.

Volunteers are also needed to install and remove the small dock located on the Ridges Property. The dock is typically installed in May and removed in October. Date and time are usually pretty

flexible. If you would like more information or would like to volunteer, please contact Bob Defaut or Chuck Birringer.

The CLAA Launch Fee box netted over \$1500 in 2018. At this time these funds have not been designated for any particular project.

### **Fish/Wildlife Committee (Pat Canney)**

The fisheries committee did not initiate any fish habitat work this winter. We had only one site available and it is not worth the planning and coordination to do one site. Our fishsticks permit runs thru 2022 and hopefully with the addition of extra sites we will return to the ice next winter to continue the work. We will be involved in the DNR fish sampling survey this spring to get a firsthand look at the fish populations on the lake. We will keep you updated as we have more information.

### **Communications Committee (Chuck Birringer)**

Except for the Annual Letter, the Directory, the Annual Meeting, Annual Picnic and Fall Dinner Flyers which are still in hardcopy, all other communication with the membership is made electronically via the website. Our goal is to have all communication electronically. If you have not provided CLAA with your email address or that of a friend or a relative please do so on the attached membership form with your annual dues.

### **Ad Hoc Committee (Mark Weisse & Gwenn Graboyes)**

We currently have an Ad Hoc Committee that is studying the possible purchase of AEDs for use around Clark Lake. Unfortunately, this committee was not been able to meet in 2018. We hope to revisit this project in 2019. Depending on the findings of this committee we may be asking members for funding.

### **History Work Group (Unassigned)**

The History Work Group is not an active work group at this time. Several years ago the history of Clark Lake was gathered and professionally put on a CD for sale. We are currently looking for a coordinator to continue this research. Contact one of the current directors if you are interested

### **Membership Work Group (Cathy Paulson)**

Nothing New to report at this time.

### **Website Work Group (Chuck Birringer)**

The website is our main source of information related to CLAA. We are in the process of adding Director, Officer and Committee Duties, along with more detail information about CLAA. We hope to use the website as an educational tool for our membership, thereby increasing member participation in committee activities and creating a tighter bond within our membership.

## **Cooperative Purchasing Work Group (Chuck Birringer)**

In 2018 we were able to continue the propane contract with Lakes Gas. A contract for Garbage and Recycling with Going Garbage was added this year. Competitive pricing for Asphalt Paving was also provided for requesting members. Unfortunately negotiations with Door County Broadband for internet services fell apart. Therefore, we are back to the drawing board for internet services. In 2019 we hope to continue the propane and garbage and recycling contracts. **Don't forget June 1, 2019 is the deadline for dues if you want to participate in this year's propane contract.** Once again, High Speed Internet will be a priority project.

## **Treasurer's Report and Annual Dues**

The CLAA had a cash balance of \$18,266.62 as of 12/31/18. With respect to the cash balance, \$3513.04 represents donations that are designated for funding projects that include \$1509.00 from the Launching Fee box on the west shore, \$127.12 for Brook Trout Stocking, \$75.00 for Fish Stocking, \$1344.75 for Fishsticks and \$457.17 for the Walleye Reef. Deducting the sum of the five above noted amounts from the year-end cash balance leaves \$14,753.58 of unallocated cash for general operating purposes.

2018 actual Revenues exceeded budget by \$3,651.53, primarily attributable to the additional dues received from unplanned memberships and the Launch Fee Box on the West Shore. 2018 actual Disbursements totaled \$6,980.97 and were \$680.22 more than anticipated. The negative variance was mainly due to additional expenses related to the Annual Picnic.

Entering 2019, the CLAA is in a very sound financial condition, which favorably positions the organization to fulfill its stated mission of protecting and enhancing the enjoyment of Clark Lake.

Membership dues for 2018 are the same as last year - \$25.00.

Please login to the CLAA website ([www.clarklakewi.com](http://www.clarklakewi.com)) to view detailed financial information.

Sue Oldenburg, Treasurer CLAA

## Clark Lake Advancement Association 2019 Annual Dues Statement

**Dues this year: \$25 for a regular membership.**

The regular membership includes both members of a couple and their dependent children. It includes free attendance at the picnic, free directory, access to the password protected section of the website, and the ability to purchase propane through our co-op (*if paid by June 1<sup>st</sup>*).

If you own more than one property you need to complete an application and pay dues for each address to get an additional vote.

# CLARK LAKE ADVANCEMENT ASSOCIATION

## Annual Letter & Membership/Dues Notice (2019)

### President's Message

First of all, I want to thank those who volunteered for the Association Activities, all those who worked on the various committees, our Board of Directors and Officers and all those who made monetary donations to the Association. Without all of you we would not have had such a successful 2018. I look forward to working with all of you in 2019.

2018 was a banner year in many areas. Last year we had the largest volunteer pool ever. Thank you all for your time and dedication and we hope that this trend continues in 2019. Please review the list of 2018 volunteers on the website on member recognition under the Member Page. Donations continue to increase annually as well. The donations will help us fund the many projects we have on our agenda. Again, thank you all very much.

I will continue to move the Association toward more Electronic Communication. The new website is becoming our main communication tool. Along with News and Notices, we are adding detailed information about our existing committees and work groups, Officer and Director Duties and other training tools to be used by our members. We hope that the use of the website will encourage more of our membership to participate in the many Association's Activities. Please use the Contact Us on the Clark Lake Website to forward any changes to your home address, phone numbers or email addresses.

In 2018 we added four new board members and one new officer. Our new board members are Ralph Dunn (Cave Point Drive), Fred Foreman (Serenity Lane), Richard Martin (West Shore Drive) and Sue Oldenburg (Clark Lake Drive). Sue also has taken on the Treasurer's Duties. Please welcome our new Directors. A current list of the Officers and the Board of Directors can be found on the website. Here is the link from the website URL:  
<https://www.clarklakewi.com/board-of-directors/>.

The schedule for the 2019 events and Board of Director Meetings have been posted on the website. Go to the website and then click on the down arrow of the events button and select the event. Here is the link to the website URL: <https://www.clarklakewi.com/>

I hope everyone has a safe and enjoyable 2019.

Chuck Birringer (President CLAA)

## **Committee and Work Group Reports**

### **Social Committee (Marilyn VanLieshout)**

There are only three events currently scheduled in 2019, the Annual Meeting, the Annual Picnic and the Fall Dinner. Because of low attendance number at the picnic, the Board will be reviewing whether or not to continue this event. If anyone has comments/concerns please contact a director with them. A Golf Outing and/or a Rummage Sale could be added to the events list if a volunteer is to coordinate any of these events. Please contact Marilyn VanLieshout if you are interested.

### **Water Quality/Vegetation Control Committee (Mark Weisse)**

We did complete the entire lake bulrush mapping and it confirms that the bulrush population is decreasing and its health and density are also declining. Individual and lake wide projects to preserve and re-establish this vital resource will be discussed this year.

2019 also will see the introduction and recruitment of volunteer owners for the Natural Shoreline project; if we get enough interest we will apply for a grant to help fund the landscape modifications. This year we are asking everyone to establish at least 35 feet of vegetative buffer along your lake front. One suggestion is to stop mowing any lawn within 35 feet of the lake and let native plants start to infiltrate.

Phragmites continues to require our attention every fall. This year we will also have a work day in the spring to cull dead canes from a large patch. There is no chemical involved in this part of the process. Watch for an announcement and call for volunteers.
